

# BioTroop Re-Fresh

Re-activating air freshener and odor controller

## Purpose of use

BioTroop Re-Fresh is a safe and effective solution for neutralizing and removing odors on both hard and soft surfaces. It is built with micro-molecules that re-activate upon physical contact this way prolonging the effect of the perfume.

BioTroop Re-Fresh is produced from plant based raw materials and applied with an environmentally friendly refillable Flairosol® spray bottle without the need of aerosols. The product is optimal for use in domestic, hotels, care facilities, hobby and leisure activities, as well as in vehicle and boat cleaning for removal of bad odors.

## Properties

Colorless perfumed liquid - Fresh laundry scent

## Contents

Please see separate Safety Data Sheet for ingredient details

pH of solution 7.5 (Neutral)

## Instructions for use

1. Attach the supplied dosing pump (30ml single dose) to the 5L can
2. Dose 30ml (One press) of the BioTroop Re-Fresh concentrate into the supplied Flairosol® Bottle
3. Fill rest of the 300ml bottle with fresh clean water and close the Flairosol bottle cap.
4. Spray liberally over the likely source of the mal-odor. If necessary, remove as much soiling as possible with disposable paper or similar prior to application. No need to wipe off. BioTroop Re-Fresh can be used on all hard and soft surfaces that can be cleaned with water.

## Product codes

160642

161640

## Package sizes

5 L

## GTIN

06429810806024

## Safety

Close concentrate container after use.

For professional use only.

## Waste disposal

Empty plastic containers and cardboard packaging may be disposed of by e-cycling or incineration.

## Storage

Cool and Dry (4 °C - 40 °C)

## Country of origin

Finland.
