

BioTroop Wash

Probiotic cleaning agent

Purpose of use

Detergent concentrate that combines high-performance surfactants with natural microorganisms that provide an effective way to clean hard and soft surfaces. The result is a superior, environmentally safe solution for a wide range of cleaning applications. BioTroop Wash contains environmentally friendly microbes that use organic waste as food. This process eliminates odors that cause bad odors by keeping the premises / surfaces to be cleaned clean. Fully biodegradable, environmentally friendly and compatible with wastewater treatment plants.

BioTroop Wash is a safe and effective all-in-one product for cleaning, deodorizing and removing stains from hard and soft surfaces.

Characteristics

Lightly perfumed liquid

Contents

Anionic and non-ionic surfactants <5%, natural bacterial strains

pH 7,5

Usage Instructions

Maintenance cleaning: dilute the product in water (2.5 - 5ml/lL) Spray on a hard surface, wipe with a microfiber cloth

Base cleaning: 5 - 10 ml/l

Mechanical cleaning: Add warm water (40 ° C) to the tank of the cleaning device and dilute the equivalent of 10 ml/lL solution.

BioTroop Wash may be used on all surfaces that can be cleaned with water. However, as with other cleaners, it is always a good idea to test the suitability before cleaning the area with this product.

Only for professional use

Product Code

160624

Packing Size

4 x 5 L

GTIN

6429830105121

Waste disposal

Empty plastic containers ja packaging material can be disposed by taking them to a recycling facility.

Storage

Stored in room temperature.

Country of origin

Finland

For professional use only.
