

BioTroop FlyBye

Probiotic pipe cleaner

Intended Use

A microbial pipe maintenance product. The microbes in the solution eliminate conditions within the piping that are ideal for insects by breaking down waste and reducing water surface tension. As a result, the piping remains clean and free of insects, as they can no longer breed inside the pipes.

BioTroop FlyBye does not place a burden on the wastewater system.

Features

- Mildly scented solution
- Eliminates unpleasant odors
- Compatible with biological wastewater treatment plants.

Contents

See the separate Safety Data Sheet for detailed information. pH 7.

Product Nr.

161640

Packaging

20 l

GTIN

06429810806000

Waste disposal

Empty plastic packaging can be disposed of by taking it to a recycling point.

Storage

At room temperature

Country of manufacture

Finland

Instructions for use

Use with the automatic SmartPipe DPT cap-mounted pump or a similar dispensing device.

The dosage depends on the system size and the total daily volume of wastewater.

Pay special attention to cleanliness and hygiene when handling microbiological products. Close the container after use. Protect the suction hose from dirt and clean it regularly.
