

# BioTroop RapidX 20

Descaling agent for effective  
pipework cleaning

## Intended Use

An effective, fragrance-free, acidic cleaner for removing limescale and mineral deposits. It cleans effectively without abrasive ingredients or harsh acids, making it a safer alternative to traditional acids and gentler on metal and other surfaces. Contains no bleaching agents, phosphates, or solvents.

## Physical Form

Fragrance-free liquid.

## Contents

See the separate Safety Data Sheet for ingredient details.  
pH of concentrate < 2 (strongly acidic)

## Instructions for Use

Automatic dosing: Use a SmartPipe dosing pump. Manual dosing: Apply the product to the pipe (brushing enhances the cleaning effect). Rinse surfaces and equipment thoroughly with clean water after use. Follow the equipment manufacturer's instructions. Contact a SmartPipe representative for specific dosing guidelines.

## Product Information

Product Nr.: 160733 / 160625

Packaging: 10l, 20l

GTIN:

10 l: 6429810806796

20 l: 6429810806765

UFI: V040-S9DM-2G1C-C90M

## Safety

Strongly acidic substances must not be used with products containing chlorine.

## Waste disposal

Empty plastic containers can be disposed of by taking them to a recycling point.

## Storage

At room temperature

## Country of manufacture

Finland
